Strengthening engagement and partnership action in poorer performing sectors

Integrating workplace H&S with the Scottish Government's agendas for economic growth health and fair work.

Improving management of occupational health

Developing the evidence for action

- A mentally healthy workplace
- Development of Scottish Social Care Partners Forum

- Gathering intelligence and soft data

- Mapping the OHS network
- National OHS adviser Network
- Worker engagement in the waste sector
- Engagement in the manufacturing sector
- Worker Safety Advisers in construction and off shore

- OHS advice in the social care sector
- OH training framework for colleges (agric)
- Driver health, support for employers

How can FE colleges support the Action Plan for Scotland?

- **What is the best to engage / consult on actions with the sector?**

- **Would the industry share its knowledge and experience with other companies and sectors - HOW?**

- **How can the FE sector support the Action Plan?**

- **What have we missed that is relevant to FE sector?**

Would the sector report its OH&S performance to a central point (without enforcement)?
