Jisc

VsceneRoom

Video Room System built on Vidyo™ technology

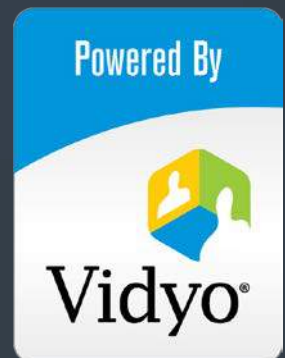

4K Ultra HD Resolution with up to 16 participants on screen

Advanced SVC technology delivers unmatched quality,
reliability and efficiency

Calendar integration for Microsoft® Exchange and Google®
Calendar

Full system support and automatic software updates
included with VsceneCampus plan.

£1,950 - £3,400

The Origins of the Chemistry of Life

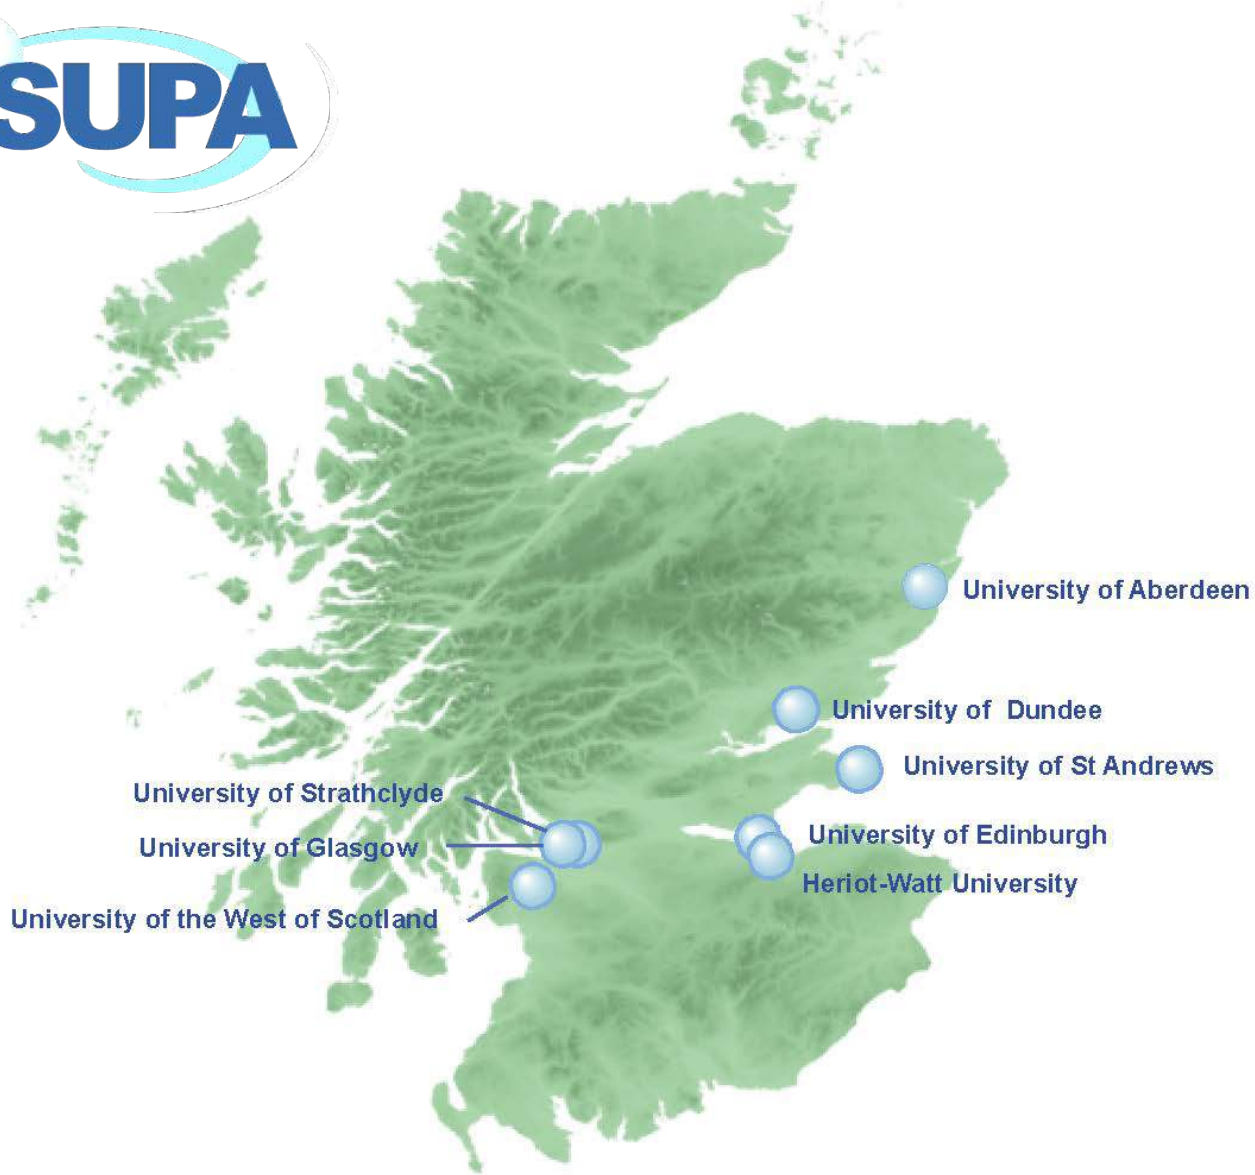

HERIOT WATT UNIVERSITY

The key points to take from this and the previous lecture is that we can make the molecules of life in space and on a planet. These clearly bring the hardware for potential life to the table. But that's as far as simple chemistry goes that's it!

To go further we need to address questions relating to when does autocatalysis and abiotic replication start to carry the information necessary to become biological reproduction

Neil Ashby, School of Chemistry, School of Engineering and Physical Sciences, Heriot Watt University

The logo for SUPA (Scottish Universities Physics Alliance) features the word "SUPA" in a bold, blue, sans-serif font. The letters are contained within a light blue, stylized oval shape that has a slight 3D effect with a darker blue shadow on the right side.

VsceneRoom has been installed at 9 universities throughout Scotland, supporting more than 100 physics classes per month.

2018 Roadmap

**'Focus on the
learning experience'**

Launch of Vscene 2.0
'Simple, Flexible & Interoperable'

VsceneHub– Collaboration Community for Education & Research

Global whiteboard, polling, attendee management
& breakout rooms

Upload and storage of learning material
& Integration with Moodle, Canvas and D2Learn

Greater broadcasting features & integration with CDNs

Very Competitive Pricing

VsceneBasic

Free

1 x Host Account

This plan is designed for desktop and mobile meetings where no room systems are connected but support is required for up to 20 x participants.

Recording and webcasting is not supported on this plan

Federated Sign-On

- Host up to 20 x guests per meeting room
- Mobile and Desktop Apps
- Global/Private Chat (archived)
- Lecture Mode Support
- Meeting Scheduling – Email Invite
- Telephone audio dial in

VsceneTeam

£245 per month

5 x Host Accounts

This plan is designed for desktop and mobile meetings where some room systems may need to be connected but support is required for up to 50 x participants with unlimited recording and webcasting functionality as well as global and private chat.

All Features of VscenBasic Plus...

- Host up to 50 participants per meeting room
- Unlimited HD Recording
- Mobile and Desktop Apps
- Global/Private Chat (archived)
- Unlimited HD Webcasting
- Lecture Mode Support
- Meeting Scheduling – Email Invite
- 5 x Guest H.323/SIP Connections in total
- Telephone Audio Participants
- SIP Registration and GDS E.164 & NRENum Support
- Breakout Rooms
- Unlimited Video Room System Registration
- Integration with Skype for Business

VsceneCampus

£550 per month

25 x Hosts & 3 x Admin

This plan is designed for meetings that require different kinds of end-points connected as well as desktop and mobile users. Scheduling is automated which means room systems will be called automatically at the start of each conference.

Live operator support is also provided for a full real-time meeting control and management. There are also comprehensive reporting features that can be accessed.

All Features of VsceneTeam Plus...

- Host up to 100 participants per meeting room
- Full Scheduling - **Fully Automated Dial-Out**
- Unlimited H.323/SIP Connections
- Telephone Audio - **Fully Automated Dial-Out**
- Global User Management
- Vscene Analytics Dashboard
- Live Operator Support

VsceneSuperOrg

£20p/m/per concurrent connection (Minimum - 150 Connections)

Unlimited Host and Admin Accounts

Just like Campus, this plan is designed for meetings that require different kinds of end-points connected as well as desktop and mobile users.

SuperOrg provides support for a very large amount of registered host users with the Vscene global address book. Simply search the address book to add meeting participants rather than adding them as a guest each time. With the Bulk User Import, you can add large amount of users very quickly.

All Features of VsceneCampus Plus...

- Unlimited Child Organisations
- Customisation Options – Institution Branding
- Bulk User Import
- User Engagement Features
- Dedicated UK Account Manager
- Email Broadcast Service
- Live In-Flight Usage Board
- Unlimited Cloud Video Storage

A simple front end for hosting video sessions very quickly.

Works alongside the current Vscene service. Currently in Beta

Desert lizards use body oscillations to dive into sand

In the desert, the sand surface can become extremely hot during the day, up to 70°C. In order to escape these temperatures, some desert lizards adopt a fascinating strategy: They dive a few centimetres under the sand surface...

ABOUT

My research focuses on using a spectroscopic technique which uses magnetic fields to induce energy level splitting which can be measured to give information on the environment and nature of electron spins. Please contact me directly if you are interested in working on a project or applying for a PhD.
