CDN NATIONAL COLLEGE GOVERNANCE PROGRAMME 2023-24

cdn
College Development Network

About the Programme

The 2023-24 CDN National College Governance Programme provides support to College Board Members. The Programme has been developed to provide a full range of continuing professional development activities from inductions for new Board Members to training and guidance in specific areas of governance.

The three key elements of our provision:

- Guidance and insights.
- Online CPD resources.
- Online training sessions and workshops (see next page).

These can all be accessed through the CDN Governance Hub (https://bit.ly/CDNGovHub).

All College Board Members are provided with access to the Hub via the Governance Professional that supports their Board. If you are a Board Member and do not have access, please contact your Governance Professional in the first instance.

Guidance and Insights

On the Hub, you will find the Guide for College Board Members (https://bit.ly/CDNGuide) together with our Board Development Framework (https://bit.ly/CDNBoardDev) and other useful information.

We also have a range of research reports available to provide insights into different aspects of College governance. These can be found on our Research and Enhancement Centre website (https://bit.ly/CDNGovInsight).

Online CPD

Our online CPD resources consist of a range of self-paced modules covering introductory, core and advanced topics. The full suite of modules is available on the Hub (https://bit.ly/CDNGovModules).

We also have our Get Into Governance Programme (https://bit.ly/CDNGiG) for those interested in knowing more about becoming a board member (this is also a useful introduction for those who have joined a College board with no previous experience).
