

What is ... **Incel Culture?**

Victim Mentality

Many incels see themselves as victims of a society that unfairly favors attractive individuals, leading to feelings of resentment and anger

Manosphere

An online community of predominantly young men who consider themselves unable to attract women sexually. This subculture is often associated with views that are hostile toward women and sexually active men

Red Pill

Represents the belief that women control sexual access and that men must recognize this "truth"

Blue Pill

Symbolises remaining in blissful ignorance. In incel culture, it represents the belief in traditional societal norms and gender roles

The belief that women will always seek to "trade up" to a more attractive or successful partner **Hypergamy**

Black Pill

The belief that one's situation is hopeless and that societal change is impossible. This is considered the most extreme and dangerous ideology within incel culture

INCEL

Incel, short for "involuntary celibate," refers to a member of an online community of predominantly young men who consider themselves unable to attract women sexually. This subculture is often associated with views that are hostile toward women and sexually active men
